

NECRONOMICON

By Nox Arcana.

21 Tracks, with a total running time of 50:03 min.

With their 2nd release, Nox Arcana delve into the world of H.P. Lovecraft. Just like their first release, they continue to conjure up dark and eerie images through their music. While this one is still has the creepy atmosphere music like their first one, to me it offered something a little different as well.

In keeping with the Lovecraft theme of the CD, there were a few tracks that gave me the feeling of tension. Tension, not like that of suspense, but of maybe knowing what you've done and now what the consequences now are. Images of someone reading long forgotten words in some dark and drearier cellar, and then having something, or some...thing, coming, or rising, or breaking through into this world, seemed to pour out from the music.

So if you're a fan of gothic and atmospheric music, add Nox Arcana's latest release, Necronomicon to your list. Just be careful where and when you listen to it....in case you conjure up some unwanted guests....
